Pre-lab

is about ...

previewing a lab so we can be safe, get done on time and learn from it.

Problem

Variables

Constants

Control Group

**Summarize
Procedures**

Safety Concerns

Data to Collect

Hypothesis

So what? What is important to understand about this?

Labs are an important part of learning science but we have to know how to do the lab and what we should be looking for during the lab to make it a safe and effective learning experience.
