FSA Review

⑧ Vocabulary

bivariate data
scatterplot
positive correlation
negative correlation
no correlation
line of best fit
linear
slope
two way tables
relative frequencies
descriptive statistics

⑤ UNIT MAP

UNIT SELF-TEST
QUESTIONS

⑦

- 1) Is it always, sometimes, or never true that a scatterplot that shows a positive association suggests the relationship is proportional? Justify your answer.
- 2) How do you generate an equation from a line of best fit?
- 3) How do you analyze a two-way table?
- 4) When you have bivariate data, what relationship exists between x and y for positive correlation, negative correlation, and no correlation?
