

# Strategic Instruction Model

is about

**research-validated**  
practices for standards-aligned  
**planning** and data-driven  
**teaching**

developed  
by

[www.sim.ku.edu](http://www.sim.ku.edu)

organized through the

**SMARTER**  
Instructional Cycle

and may include co-  
construction of learning with

and may include intervention for  
academic and social skills with

**Content Enhancement**  
Routines

that include

**Linking Steps**  
(#’s on device)

**Learning Strategies**  
Curriculum

that have a

**Device**

that follow the

**Cue-Do-Review**  
Instructional  
Sequence

- to provide a strategy for approaching the learning task

chosen  
based on

**Individual**  
Student  
need

that  
includes

**Mastery-  
based  
gradual  
release**  
instructional  
sequence

- drafted by the teacher, driven by content complexity
- with embedded learning scaffolds

- that is explicit and engages students
