# FRAMING VOCABULARY™ Professional Development Resources Information

Edwin Ellis (205) 394-5512   edwinellis1@gmail.com   Session: Friday, July 12 from 8:30-9:45 AM

Professional Development materials (presentations, workshop activities, handouts, etc.) can be downloaded from SIMville. There are several YouTube videos you can access to share with teachers. To access the videos, search *"Framing Vocabulary"* on the Internet.

Not to be confused with the *Framing Routine*, **Framing Vocabulary**™ features a series of 17 frames specifically designed for teaching two types of vocabulary (terms with CONCISE definitions and terms with ELABORATED definitions). The program includes a vocabulary lesson planner, instructional planning guidelines and a series of instructional routines for using them when teaching vocabulary.

Seven of the Vocabulary Frames are designed for teaching terms with CONCISE DEFINITIONS.

Features * Connections	Essential Understandings	EU Matrix	EU Venn	Features * Context	Related Words Web	Related Words Frame

Ten of the Vocabulary Frames are designed for teaching terms with ELABORATED DEFINITIONS

Framing Vocabulary™ SOFTWARE

The **Framing Vocabulary**™ software consists of 34 digital (17 color,17 blackline) interactive *Vocabulary Frames*™, samples of how teachers have used each of them as well as the interactive *Framing Vocabulary*™ *Lesson Planner*.
Because the *Vocabulary Frames*™ are digital files, teachers or students can use a keyboard to type information directly into the text boxes on the *Vocabulary Frame*™. Likewise, you can email copies of the *Vocabulary Frames*™ to students so they can use them when completing assignments outside of the classroom, and students can submit the completed work electronically.

When you develop a *Vocabulary Frame*™ for specific instructional units, you can save your completed (or partially completed) *Vocabulary Frame*™ to a folder that contains other related unit information and files.

The color versions are ideal for use with White Boards, Promethium Boards, and LCD projectors when displaying a *Vocabulary Frame*™ to a class and developing the information on it during a class activity. The blackline versions are more appropriate for printing hard copies to share with your students.

The software also contains an interactive eBook of the entire *Vocabulary Frame*™ Guidebook. Teachers can access the interactive *Framing Vocabulary*™ *Lesson Planner* to quickly make decisions about which vocabulary to target and plan lessons using the *Framing Vocabulary Instructional Routines.* The eBook includes abbreviated "Quick-start" guides for specific instructional routines, as well as more detailed instructions for how to plan vocabulary instruction and implement the routines. The Quick-start guides work best for seasoned teachers, whereas the more detailed instructions are often most useful when providing professional development to novice educators, such as those in pre-service teacher education.

Immediate download of *FRAMING VOCABULARY*™ software is available for SIM professional development at 50% off ($15 per teacher) the regular price of $30 at www.MakesSenseStrategies.com, To get the discount, enter the Coupon Code: *IS-1-SIM*

The *Framing Vocabulary*™ software license is for a single–user (teacher). The licensed user may make and distribute copies of Vocabulary Frames to students for whom they are responsible for teaching, but they may not be shared with non-licensed teachers or students not on the licensed teacher's role. Network (multi-user) licenses are available.

Framing Vocabulary™ Hardcopy

The **Framing Vocabulary**™ hardcopy book consists of 17 blackline masters of *Vocabulary Frames*™, samples of how teachers have used each of them, a blackline master of the *Framing Vocabulary*™ *Lesson Planner* and step-by-step guidelines for planning vocabulary lessons and implementing the instructional routines. The hardcopy book provides the identical information as that provided in the eBook version. SIM discount price = $15 ea., + 10% S/H ($5 min.) If ordering from the website, enter Coupon Code: *IS-1-SIM*

SIM-PD related Purchase Orders (POs) for CDs, Multi-User Licenses, hardcopy books etc. should be mailed to:
