

## Instructions for Journal Assignment

- Steps for Columns
  - **Observation Column:** Make observation notes in this form related to a teaching video uploaded in Edthena
    - Identify/describe 3 to 5 observations that relate to **this week's journal topic**
  - **Meaning Column:** Review the observation notes and write your thoughts about what you observed. In other words, what does what you saw and wrote make you think of?
  - **Research Column:** Note the research that confirms or refutes your thinking, using APA in text citations for each thought comment and/or observation, e.g. (Author, date, pg.)

Teaching video name: Teaching Video		Date: 01/01/16
Observation	Meaning	Research

### Summary:

In a **500 word summary**, use the components of the above table to create 3 well written paragraphs.

- Describe what you observed and your own thoughts about what you saw.
- Synthesize the research (articles and/or webinars) you've read on the topic this week by comparing and contrasting it as it relates to your observations and your own thoughts.
- Finally, describe how your thinking has changed and what changes you will make in your teaching because of what you have learned.
